Projects:-

- **Lucknow Foods Website (Link-Click here)**
  I have created a responsive website with 15+ food items about Lucknow. This website contains several food items with their Location and Price.
- **Personal Portfolio Website (Link-Click here)**
  This is my personal portfolio responsive website which I made to show my details about career, education, certification and skills. This website has a sidebar which contains different section. It also contains some more projects.
- **IOT Live weather monitoring system**
  This is my B.tech final year project which is based on IOT. In this project we have made a device which collects various weather parameters using its own sensors like humidity, temperature, atmospheric pressure and rainfall using DHT11, BMP180, Rain sensor FC37. It shows the data on website which can be access by various members at a time.
